

ABSTRACT

**METHOD FOR MANAGING MULTIMEDIA PLATFORM RESOURCES
AND MULTIMEDIA PLATFORM FOR IMPLEMENTING IT**

A method and an apparatus for managing signal-processing
5 resources of a multimedia platform that is designed for applying signal-
processing operations to multimedia signals defines multimedia functions
each capable of monitoring the operation of a set of multimedia platform
signal-processing resources, puts them in contact, adapts the contents of
the signal-processing resource set depending on the multimedia signal to
10 be processed, and uses the multimedia functions to apply the signal-
processing operations to the multimedia signals.
